Good afternoon Ali,

Thanks for this. We did discuss the Village Hall situation at the VPA AGM on Monday night. I think I got over all the points in Bob's document. I can let you know that, although we would naturally like a brand new hall, and who wouldn't, my Committee fully understood the situation and realised that in the current climate this is not achievable. At the same time, everyone fully appreciated the work that been done on this project, not least all the avenues that David Myers has explored to seek grant funding. We are realistic and acknowledge the situation. We felt that, until there is a change in the economic climate, then we have to ensure the current building is safe for all users.

I have sent a similar email to Maria.

Hope that all helps,

Kind regards,

Paul.

The Future of the Victory Hall

At the last Hall Committee meeting we agreed that all representative members would consult their respective organisation to seek their views on the future of the Victory Hall.

To help with that I am attaching a copy of a short briefing note for you to use in your discussions. I suggest you email a copy to your committee and seek their views. If, however, you would rather have paper copies, let me know and I will get them to you.

Please let me have your organisation's view by 25th February at the latest.

If it would be helpful for a member of our management committee to come and talk with your members, I would be happy to arrange it.

Our next Hall Committee meeting was planned for the 25th February but we are conscious that this is on the same day as the Parish Council has its meeting. We therefore intend delaying our meeting until 4th March to allow time for the necessary discussions to take place before consulting more widely.
